- Supports mental focus*
- Ideal for an afternoon “pick-me-up”
- Antioxidant protection with vitamin E*
- Oil-based formula for optimal absorption in the body
- May reduce memory loss associated with normal aging*

Product Fact Sheet Energy Plus™

ACTIVE LIFESTYLE SUPPORT

Energy Plus™ is fortified with a proprietary blend of herbs and natural sources of vitamin E to promote energy and mental focus—without any added stimulants or artificial ingredients.* A key ingredient in this unique formula is vitamin E, which protects the body’s tissues from oxidative damage.* Vitamin E is also important in the formation of red blood cells and it helps the body use vitamin K.*

PHILOSOPHY OF REGENERATION®

Our body recognizes food, not chemicals. Energy Plus™ uses a natural form of vitamin E called d-alpha-tocopherol. Natural vitamin E is listed as d-alpha tocopheryl acetate, d-alpha tocopherol, or d-alpha tocopheryl succinate. In contrast, synthetic (made in a laboratory) forms of vitamin E are labeled with a dl- prefix. Due to its molecular structure, natural vitamin E is absorbed much better in the body than its synthetic form, which is generally derived from petroleum products.

INGREDIENT HIGHLIGHTS

PANAX GINSENG

This plant has been used for traditional medicinal purposes for centuries. It’s used primarily to support cognitive function, energy, and immune function.*

BEE POLLEN

Considered one of nature’s most completely nourishing foods, bee pollen contains vitamins, minerals, carbohydrates, lipids, and protein. The range of nutrients makes it a great natural energizer.*

WHEAT GERM OIL

Extracted from the germ of the wheat kernel, wheat germ oil is high in vitamin E and a good source of magnesium, zinc, thiamin, folate, potassium, selenium, and phosphorus.

FAQS

Q: What are some of the benefits of Energy Plus™?

A: Energy Plus™ is fortified with a proprietary blend of natural ingredients that combine to support physical energy and mental focus.* Each soft-gel capsule contains 670% of the daily value of vitamin E, and 4% of the daily value of iron. A main ingredient in Energy Plus™ is vitamin E, a powerful antioxidant that helps protect cell membranes against damage caused by free radicals while preventing the oxidation of LDL cholesterol for a healthier heart.* Vitamin E is also important in the formation of red blood cells and helps the body use vitamin K, a vitamin that plays a role in blood clotting and building strong bones.*

RECOMMENDATION

One soft-gel capsule at mealtimes.
