

# Product Fact Sheet

# Oi-Lin<sup>®</sup> Skin Care Set

## HEALTHY SKIN, RADIANT BEAUTY

This deluxe skin care set promotes healthy, radiant skin in just four simple steps. Everything needed to nourish, cleanse, and balance the skin to bring out and maintain natural beauty is contained in one signature set. Exclusive Oi-Lin<sup>®</sup> formulations are composed of the finest age-defying ingredients, including a broad array of botanicals and herbal extracts. Designed for all skin types, these products are especially beneficial for dry or sensitive skin. Because total body health is the goal at Sunrider, our products not only nourish from the inside out, but also from the outside in. Natural, safe, and cruelty free, this set partners perfectly with a healthy lifestyle.

## PHILOSOPHY OF REGENERATION<sup>®</sup>

Dr. Tei-Fu Chen has applied his Philosophy of Regeneration<sup>®</sup> to skin care and has achieved beautiful results. The finest herbal and botanical ingredients are expertly formulated to promote the health and vitality of your skin. We never use harmful ingredients such as mineral oil, petroleum by-products, or animal-derived proteins and oils, which can actually suffocate the skin and cause premature aging.

## INGREDIENT HIGHLIGHTS

### JOJOBA OIL

Extracted from the seeds of a shrub, jojoba oil provides hydrating and moisturizing benefits. It's nearly identical in chemical structure to the natural oils in skin, so it's quickly absorbed without leaving a greasy residue.

### SQUALANE

Derived from olive oil, squalane has powerful antioxidant properties and delivers a moisturizing effect that helps restore lost oils when applied to the skin. Non-irritating, it works wonders on all skin types.

### OLIVE OIL

This natural emollient contains vitamins and fatty acids that benefit skin with their softening and moisturizing properties.

## FAQS

**Q:** Why is pH-balance so important?

**A:** Your skin is your body's protective covering and an important defense against bacteria and environmental pollutants. It's fortified by the acid mantle, which is a combination of perspiration secreted from the sudoriferous gland and oil secreted from the sebaceous gland. The acid mantle is only slightly acidic (with a pH between 5.5 and 6.5) and acts as a protective barrier that also regulates the skin's oil and water balance.

Many companies use high-alkaline products of pH 8 and up, which strip the skin of this protective barrier. This leaves the skin prone to disorders, including dry skin, infections, and blemishes. In contrast, all our skin care products are pH balanced to work harmoniously with the acid mantle. This helps keep your skin young, firm, and vibrant—for only when the skin is permitted to function at its best can it look truly beautiful.
