INGREDIENT HIGHLIGHTS

COCOA BEAN

Cacao, the source of cocoa beans, is a natural appetite controller and may help reduce food cravings.* It also contains antioxidants, including polyphenols, catechins, and epicatechins.

GREEN COFFEE BEAN

The shells of these unroasted coffee beans contain high levels of chlorogenic acid, a polyphenol antioxidant that researchers speculate may promote weight loss by reducing the absorption of fat and glucose in the gut.*

POLYGONUM

This perennial vine contains resveratrol, a powerful antioxidant shown in studies to provide a multitude of health benefits, such as weight loss, free-radical protection, anti-aging support, and cardiovascular support.*
