BENEFITS

- Sugar-free natural flavor enhancer with a sweet taste
- Enhances flavor of foods and beverages
- Rich in antioxidants
- No added chemicals or preservatives
- Highly concentrated for maximum effect
- Zero calories

SAFELY SATISFY YOUR SWEET TOOTH

Made from the stevia plant, this all-natural flavor enhancer undergoes a unique purifying and concentration process that preserves the natural structure of the stevia plant while maximizing the delivery of natural antioxidants. With zero sugar, carbs, and calories (and no aftertaste!), our stevia formula makes it possible to satisfy sweet cravings without derailing a healthy diet. Use it daily to add flavor to drinks and dishes and support a healthy lifestyle.

PHILOSOPHY OF REGENERATION®

The formula for Sunectar® stevia extract is based on the Philosophy of Regeneration®—the belief that we should nourish and cleanse our bodies with the best nutrition to reach balance, and thus optimal health. Sunrider is an early innovator in the manufacturing and marketing of products that contain stevia. In 1995, Sunrider successfully petitioned the Food and Drug Administration (FDA) to lift the import alert on the extract of stevia leaves, thereby clearing the way for the use of stevia as a dietary supplement in the United States.

INGREDIENT HIGHLIGHTS

STEVIA

This natural sweet-tasting plant belongs to the chrysanthemum family and originated in South America. It contains many natural antioxidants that are further enhanced through Sunrider's concentration process.

CHRYSANTHEMUM

This beautiful flower is an excellent source of antioxidants and contains essential minerals.

FAQS

Q: How sweet is stevia?

A: Stevia is estimated to be between 200 to 400 times sweeter than sugar. A little bit goes a long way!

Q: Where does stevia come from?

A: Stevia extract comes from the Stevia rebaudiana plant, an herb in the chrysanthemum family that grows wild as a small shrub in parts of Paraguay and Brazil. The glycosides in its leaves, including up to 10% stevioside, account for its amazing sweetness, making it unique among the nearly 300 species of stevia plants.

Q: How is Sunectar® different from SunnyDew®?

A: Sunectar® is a concentrated raw extract of stevia, while SunnyDew® is a purified extract concentrate of stevia. Compared to Sunectar®, SunnyDew® has a lighter color and a higher concentration of the sweet-tasting component of the stevia plant.

RECOMMENDATION

Add drops as desired to supplement food or drink.
